

## Letter of reference

Our company has been commissioning transport and forwarding services from Optima Logistics Group since May 2015. During that period, Optima has been recognised as a very effective partner who is committed to completing every order of transport it accepts. By reliably discharging its services, Optima has shown that, despite its numerous competitors on the market, it is the best choice as your partner for transport. Working with Optima has given us nothing but benefits in safety, reliable lead times and exemplary performance of shipping services.

We recommend Optima as a business partner. Optima fully deserves your trust thanks to its expertise in the transport and forwarding industry, excellent work organisation and impeccable approach to its customers.

Sincerely yours
